DETAILED ACTION

Response to Arguments

Applicant's arguments, see Applicant Response, filed 08 May 2006 with respect to Claims 1-29 have been fully considered and are persuasive. The rejections of Claims 1-29 have been withdrawn.

Allowable Subject Matter

Claims 1-29 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to Claim 1, the best prior Art of record teaches many of the elements of the claimed invention, including a multilayer polymer-quantum dot light emitting diode comprising: at least one aqueous soluble quantum dot layer of aqueous solvent soluble between a first polymer layer and a second layer.

However, the best prior art of record fails to teach or fairly suggest the diode wherein the quantum dot layer is between a first non-polar solvent soluble polymer layer and a second non-polar solvent soluble layer in the manner required by independent Claim 1.

Claims 2-29 are allowed by virtue of their dependency upon Claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
